Whoa! Never hurts to ask twice. I do think it makes sense for you to go.

Actually, I just spoke to Joe, (at home) and he has changed his mind and its a go. I agree it should be interesting.

That's too bad. I think it sounds like an interesting trip, and Bob probably would have appreciated your company... and expertise!

There will be someone there from the PRP Group's consultant LECG, who has some experience with this sort of document review so hopefully his presence will be helpful.

Sarah,

I made a request to Joe Rotola, acting RAB Branch Chief, to accompany Bob during the review of the

466953

Army Quartermaster Records, but he was not overtly receptive to the idea, instead wanting to try to schedule a branch meeting and one on one discussions with staff to discuss assignments and sites during the time period in question.

So perhaps next time.

Subject Bayonne - Army Quartermaster Records

History:  This message has been replied to.

Joe,

I faxed a few documents to Bob from the group that the PRPs gave us, showing the connection between the Belle Mead facility and Bayonne. I can't remember now, whether I made you a copy of the documents. Most of them did not relate directly to Bayonne, but a few did reference a contract between Belle Mead and BBD, and a good number talked about the drum storage at Belle Mead and efforts to reclaim the drums.

If you are going with Bob, it would be worth taking a look at the documents to give you an idea of the kinds of info that might be helpful.
